

TRAINING COMPLIANCE

Why Gensuite for Training Compliance

Gensuite Training Compliance software enables training leads to deliver regulatory-required, program-specific training based on job activity. Enable e-learning, schedule classroom training, “flag” training needs for transferred employees, and track employee training and required qualification.

Key Capabilities

- ① Establish framework for managing regulatory-required and program-specific training requirements
- ① Integrate with existing HR systems to alert training leaders of new and transferred employees for training needs assessment.
- ① Offer multiple training instruction types to engage employees in classroom and e-learning
- ① Provide employees access to a library of pre-loaded training content licensed from leading providers such as RedVector®, SkillSoft® and PureSafety®
- ① Validate training effectiveness through e-quizzes and logging completions online through Mobile QR coding
- ① Identify qualified employees by task and training completion status
- ① Establish specialized training needs based on language, country-specific and local regulatory-required training with use of Gensuite Reg Tracker
