

SAFETY DATA SHEETS

Simplifying Chemical Management for Optimal Efficiency

Gensuite Safety Data Sheets (SDS) is a leading chemical management application to protect employees from chemical hazards and provide optimal support for hazard communication (HazCom) compliance. Easily track approved chemical product inventory with associated safety data sheets, including GHS pictograms, precautionary and hazard codes, and utilize out-of-the-box functionality to generate container and shipping labels.

150,000+ unique SDSs
95,000+ GHS SDSs

2017 Occupational Health & Safety New Product of the Year

GENSUITE SDS - AVERY® LABELS INTEGRATION

Create and print Globally Harmonized System (GHS) compliant labels on-demand

Gensuite SDS is integrated with Avery® designed label templates to generate custom labels with pre-populated data from the SDS application module. Leveraging the Avery® Design & Print Wizard, conveniently pull in Chemical Product Name, Manufacturer Name, GHS Pictograms, Hazard & Precautionary Statements, and more, to print customized labels directly from your desktop or mobile device.

Out-of-the-box templates for HMIS, NFPA & GHS via two chemical product labeling options:

- Gensuite Standard Avery labels
- Avery Design Print Online

SDS Label Printing Made Easy with Gensuite and Avery®
