

Effectively Document, Manage, & Track Shipments of  
Hazardous Chemicals & Materials

# Gensuite Dangerous Goods Shipper

**P**roper packaging, labeling, and shipping of hazardous and dangerous goods is critical to safe transportation and materials handling, and to avoiding the substantial reputational risks and financial penalties from improper shipping.

Gensuite's Dangerous Goods Shipper allows you to centralize all of the information you need when preparing to ship HAZMAT's - from guidance documentation, supporting hazmat analysis information, as well as a list of authorized and certified team members to review and finalize the shipments - to ensure that shipping protocols and regulatory compliance is addressed.

## DISCOVER WHAT DANGEROUS GOODS SHIPPER CAN DO FOR YOU

*Ensure proper management and shipment of hazardous materials*

- ▶ Digitize Shipping Documentation and annual update process
- ▶ Establish standardized request and approval process for dangerous goods shipping guidance
- ▶ Track shipments of dangerous goods and associated guidance documents to shipments
- ▶ Customize entity setup to cluster locations that ship similar materials
- ▶ Print shipping guidance templates
- ▶ Connect shipping guidance with additional details from Gensuite's SDS and Waste Tracker applications

## Key Challenges to Dangerous Goods Shipment Management

- ▶ Significant fines for incorrectly packaged / labels hazardous materials
- ▶ Complex packaging, labeling, and shipping requirements by country, transit mode, and product
- ▶ Managing exemption and special permits and understanding how they apply to your shipments

### Dangerous Goods Shipper **In Action:**

- ▶ **Document & manage hazardous materials**  
Including guidance for commonly shipped hazardous materials within a centralized repository of supporting documentation
- ▶ **Manage a list**  
Of authorized team members based on shipping mode and certifications
- ▶ **Establish a structured process**  
To review and approve guidance documents and authorized team members
- ▶ **Track hazmat shipments**  
With referral to associated guidance documentation
